

DTS Workshop

Mexican Independence Day

October 9, 2012

Hey Everyone!

FINANCE SEMINAR

At the beginning of this month, the base invited Don and Pat Robinson to come down and speak to us about finances. They run the accounting department in YWAM Tyler where they process support for thousands of YWAM missionaries around the world. It was so good to study more of what the Bible teaches about finances and then practically apply that into our lives!

DTS WORKSHOP

Right after the finance seminar, those of us who work in the base's training department hopped into one of our vans and headed down to Guadalajara, Mexico for a DTS workshop the base there was hosting. It was such a great time of hearing

from some of our regional leaders about the fundamentals of DTS. I feel like God really opened up my eyes to different possibilities and options for doing things. It got me so excited for the January DTS! I can't wait to get to put some of these things into practice! It was also really fun to get to spend time with friends from other bases and meet other YWAMers who work in training. ☺

SEPTEMBER DTS HAS BEGUN

A week ago our September DTS here began and we have 25 students from 6 different nations! With this DTS, we are pioneering two different focused DTSes—one in Compassion and one in Sports. It is so exciting to have all of these new students here, ready and hungry for God! I love getting to work with some of them in the kitchen and also getting to personally

disciple three of the girls on the school!

PRAYER REQUESTS

- for vision and direction as I start planning and getting ready for the January DTS
- for finances for the students on this DTS
- for each student to be open to God's guiding and grow deeper in their relationship with Him
- to easily connect with the girls I'm discipling and for wisdom to encourage them and speak into their lives

So that's about it for this month! Hope to hear from you all!

Bendiciones,
